**Becoming a True Human Being  
by Spanning the Threshold  
A First Class Conference  
for Professionals who work Psychotherapeutically  
September 7 (15:30) - September 10 (12:15), 2024  
Goetheanum, Dornach, Switzerland**

*Blue Cards Required*

In these times of fragmentation, strife, and war, it is difficult to maintain our integrity as world human beings. How can we uphold our essential humanity in the onslaught of world events? Our struggles can result in outer discord and personal illness, including all sorts of mental health difficulties associated with an unconscious crossing of the threshold. How does our *conscious work* to cross the threshold to the spiritual world contribute to our essential humanity?

Our First Class conference for psychotherapists will look at Class Lesson 7 and the Recapitulation Lesson 6 which augments Lesson 7. In this class lesson, we cross the threshold; we are invited to experience the transformation of the soul forces of thinking, feeling, and willing in the spiritual world. How does the experience of the soul forces, transformed, inform our work as psychotherapists? What are the differing implications for our ability to be truly human (and thus humane) if we are able to cross the threshold consciously, versus merely unconsciously? Our goal is to learn how to become a true human being and then to support this process of becoming in our clients.

The conference is participatory, with small group work. The conference will include Class Lessons, conversations, and eurythmy.

Interested First Class members from healing professions are welcome to attend, especially psychotherapists and all professionals who work in a psychotherapeutic way with clients. Please bring your School of Spiritual Science **blue card** for admittance. The conference will be offered in the **English language**, with additional reading of the mantras in German.
